FORKLIFTS - COUNTER BALANCE ELECTRIC  
NEW - SALE

<b>Date Listed</b>	28 Apr 2023
<b>Reference</b>	CPD20SR-18
<b>Power Type</b>	Battery Electric
<b>Lift Capacity</b>	3,968 lb(1,800 kg)
<b>Mast Type</b>	Triplex (3 Stage)
<b>Maximum Lift Height</b>	236 in(6,000 mm)
<b>Tyre Type</b>	Solid / Puncture Proof
<b>Machine Height (Mast Lowered)</b>	102 in(2,595 mm)
<b>Machine Features</b>	Mast full free lift Overhead Guard Charger

*ADDITIONAL INFORMATION*

**SAFETY AND STABILITY** • This feature appears especially important when in or out of the container, and carrying goods in congested area and narrow aisle. Standing type design with wide view clear visibility. • Imported drive wheel and mast. • With multi-function LED display with BID can be programmed , include battery discharge faulty code, drive direction, hour meter, brake situation etc. • Advanced AC control system offers strong driven ability. No brush with generative brake. • Offers three type driven speed: low speed, normal speed, high speed. You may choice according to different request. • Multi-function type joy stick can control forward, reverse , mast lifting/lowering tiling and sideshift etc. easy to operate. • Germany made magnetic multi-valve , with proportional valve and offers adjustable lifting/lowering speed • Wet disc brake. • With small turning radius 1440mm and aisle width smallest is 3060mm.

**OFFERS 6 TYPE CONTROL SPEED** • System Controlled Hydraulic Speeds: The hydraulic system automatically controls tilt and stable side-shift speed to increase forklift stability and operator confidence. • Travel Speed Control: truck can automatically controls travel speeds and braking based on fork height and other operating conditions. • Cornering Speed Control: the truck will automatically adjust travel speed when steering. • Ramp Speed Control: The intelligent control system can maintains holds truck stopped on the ramp until the operator start travel forward at a constant speed. • Safe Speed Control: The forklift will slow down automatically if the foot of the operator places out of the standing platform. • Lift/lower Speed Control The operator can adjust the lift and lower speed by control handle. **ERGONOMICS** • With adjustable armrest, comfortable and stable. Suit for different height driver using. • Large compartment for standing, with foot relax plate, can effectively relax foot while static operation. • The standing platform has a good shock absorption, conform to ergonomic design to make the operation more comfortable. • The adjustable armrest and seat provides padded support to ensure the hand comfortable and stable, and meet different requirements for the operators. **SERVICE ABILITY** • Easy reach to electrical system while open the front cover, easy for maintenance. • Driving motor and lifting motor are all with AC system, brushless easy to maintain external encoder is easy to replace. • Sideway moving battery with lock system it is convenience for maintenance. • Lifting function will be cutoff while battery discharge is over 80%. • The multi-function display with error code can easy to check troubles of truck.
