ADDITIONAL INFORMATION

Safety And Productivity ● AC Motor eliminates replacement of carbon brush. ● Multi-function display with BDI and hour meter. ● Side way battery is easy to maintain. ● Damping cushion for low-noise operation; ● Emergency reversing device in the handle provides higher safety for the whole operation. ● Auto deceleration function makes operation more safely. ● Built-in pressure relief valve protects the trucks from overloads, increases the reliability. ● Braking applied with handle upright and horizontal position, increasing the safety of the truck. ● Emergency power disconnect switch. ● Turtle-shaped low speed switch. ● Stepless speed control. ● Supporting legs in both sides improve the lateral stability of the stacker.

Optimum Structural Design ● Low center of gravity ensures the stable operation. ● Vertical driving wheel ensures convenient maintenance and small turning radius. Water-proof and dust-proof motor structure, keeps the braking and motor more durable and reliable. ● The mast and the frame are dividable and exchangeable.

● Full free lifting, fit for working in low roof house. Serviceability ● Low voltage protection setting prolongs the battery life time. ● The electronic components' concentrated design simplify the circuit and makes easy access to assemble, debug and maintain, ● CANbus technology reduces wiring complexity and increase reliability. ● Hall element reduces wear components, resulting in increased component life.
